

Forensic Accounting

Delivering expert guidance on complex financial issues.

Our forensic accounting team is experienced in undertaking detailed financial investigations and analysing financial and other data. Our team often **supports on cases of suspected fraud and misappropriation**, following funds or other assets in both criminal and civil matters.

The commercial and practical experience of the team means they are well placed to advise on and prepare valuations, quantify potential losses, trace unusual transactions and undertake detailed financial analyses.

Carl Lundberg, Partner at Gerald Edelman and member of the ICAEW and the Academy of Experts is also available to act as an expert witness when appropriate.

Valuations

Often disagreements can arise over business valuations; our team provide realistic and objective valuations to ensure mutually agreed resolutions are met.

Trend Analysis

We are experts at analysing data and can assist you with bespoke analysis assignments to cut through big data and understand its underlying message.

Fraud

Our team carry out bespoke investigations where businesses suspect fraud or theft within their business or have been accused of it themselves.

Proceeds of Crime Act (POCA)

We are experienced in dealing with cases involving confiscation orders under the POCA.

Expert Witness

We can deliver expert witness statements and reports for use in civil, family and criminal courts.
