

# Technical Manager

Full time

## About the role

This role involves working closely with the Technical and Compliance Partner. You will be carrying out recurring and ad-hoc technical projects through the year. This role is newly created and arises from the expansion of the firm and the need to have a technical resource at Manager level. In addition to the technical aspect of the role, the candidate would also manage their own small Audit portfolio, where they would report to various RI's within the firm.

## Is GE right for you?

A dynamic and evolving organisation which puts individuals at the heart of its business. We provide exciting opportunities across our firm, enabling our team to achieve new heights in their career. Here you will be challenged, supported and most importantly heard, enabling you to develop your skills and grow professionally and personally.

You will receive hands on training, personal development and support from leading and seasoned practitioners, partners and experts in their field, enabling you to quickly grow your knowledge and expertise and excel in your chosen career.

## How we give back

To ensure our employees know how much we value their hard work, we offer an extensive benefits and perks package. Our package covers your lifestyle, health and wellbeing, development and finances. How about an additional day off to celebrate your birthday? Or utilising our in-house mentoring scheme? And access to our Work Life Well platform? These and many more perks are included in your GE employee benefits pack. To see the full list, [click here](#).
